¹ LTV/CLTV will be based off one of the following: • The original loan amount of prior VA mortgage • AVM					
• VA Approved Fee Panel appraiser must not be used if an appraisal is obtained					
² LTV/CLTV based on total loan amount <u>including</u> financed VA Funding Fee					
³ DTI >41% must exceed the required residual income of at least 120% and document compensating factors					

Funding Fee Table			
Type of Loan	Exempt	% for First Time Use	% for Subsequent Use
All IRRRLs	N/A	.50%	.50%
- All VA loans require a VA funding fee unless the VA has determined the veteran to be exempt from paying the funding fee. - All or part of the fee may be paid in cash at loan closing or may be financed in the loan. - Veterans who are not currently exempt must provide a statement indicating if they have a pending disability claim with VA. If yes, follow VA guidelines for a pending claim.			
VA Lending Resource	All loans must be underwritten to the standards contained within this matrix and the VA Pamphlet 26-7		
VA IRRRL Transactions	Overview: - A VA IRRRL transaction is a VA-to-VA refinance used to refinance a property on which the Veteran has already used their loan eligibility. - The VA IRRRL transaction will re-use the entitlement originally used. - COEs are not required, though evidence of funding fee status is required (a screen print of the funding fee status provided at the time the LIN is requested is acceptable)		
Loan Terms	10, 15, 20, 30 Year Terms 5/1 ARM (1/1/5), One-Year Treasury		
Ineligible Transactions	- VA Renovation Loan - Energy Efficient Mortgage		

Geographic Restrictions	- Hawaii Lava Zones 1 and 2 are ineligible. - Texas 50(a)(6) and a(4) loans are not permitted. - Colorado, Illinois (Cook, Kane, Peoria, and Will Counties) – income must be stated on application but does not require analysis for non-credit-qualifying. - Kansas: - A valuation is required for primary residences. One of the following may be used to determine value: ➤ Most recent tax assessment value by county ➤ 2055 Drive-by Appraisal Report ➤ Approved AVM - If the LTV exceeds 100%, a Kansas High Loan-to-Value Notice must be provided to the borrower not less than three days prior to closing and a copy of the Valuation provided to the borrower.
Maximum Loan Amount	- VA County loan limits do not apply to IRRRLs. VA will guarantee 25% of the principal balance on an IRRRL, regardless of whether the loan exceeds the limits for the county. - The maximum loan amount is the existing VA Loan Balance plus the following: - Any late charges, plus - Allowable fees and charges (including up to two discount points) - The VA Funding Fee - Deferred mortgage payments under the CARES Act - The maximum loan amount for IRRRLs is determined by completing the IRRRL Worksheet (VA Form 26-8923) - The new loan amount may not include any delinquent payments from the existing Mortgage.
Escrows	Required for taxes and insurance.
Temporary Buydown	Not permitted
Minimum Guaranty	25% guaranty is automatic on VA IRRRLs
Maximum Loan Term	The maximum loan term is the original term of the VA loan being refinanced plus 10 years, but not to exceed 30 years and 32 days. For example, if the old loan was made with a 15-year term, the term of the new loan cannot exceed 25 years.
Debt-To-Income (DTI)	- N/A - Non-Credit Qualifying IRRRLs. - Credit Qualifying – follow manual underwriting guidelines, see matrix for limits
AUS Requirements	All IRRRLs must be manually underwritten. AUS is not permitted
Documentation	All borrowers must have a valid Social Security number
Qualifying Rate	Fixed & ARM: Qualify at the Note Rate
Appraisal	- AVM is required for all IRRRLs. - An appraisal is required when one or more of the following apply: - When going from a Fixed interest rate to an ARM refinance and charging discount points. These appraisals are not ordered through WebLGY or the VA Fee Panel. - If the Veteran is required to pay for the cost of the appraisal, the cost must be included as part of the recoupment cost. - The Veteran may only be charged a reasonable and customary amount and only charged for one appraisal.
Condominiums	VA approval of a condominium is not required

Recoupment of Fees	- The VA fee recoupment standard applies to all IRRRLs, including, but not limited to IRRRLs where: the principal balance is increasing, the term of the loan is increasing, or where the loan being refinanced is an adjustable-rate mortgage (VA Circular 26-19-22). - IRRRLs resulting in lower P&I payments: - Requirement: Fee Recoupment must be ≤ 36 months after the date the loan is closed - Calculation: There are 2 types of calculations - Comparison Statement Calculation (Disclosure) and Statutory Calculation. If the Comparison Statement Calculation provided in the disclosure statement passes the ≤ 36-month test, the Statutory Calculation is not required. - Comparison Calculation: For all IRRRLs, the Comparison Statement Calculation must be completed, as follows: - Add the following items from the Loan Estimate (initial disclosure) or Closing Disclosure (final disclosure): origination charges, services you cannot shop for, services you can shop for, taxes, other government fees, and the VA funding fee. - Subtract any lender credits. - Divide that amount by the decrease in monthly PI payment. Note that the monthly PI payment is calculated using the total loan amount, including any financed VA funding fee. - Lender Certification: If the recoupment period is ≤ 36 months: during the LGC process the lender may upload the final Comparison Statement Disclosure to certify to VA that requirement is met. - Statutory Calculation: If the recoupment period on the final Comparison Statement Disclosure is > 36 months, the Statutory Calculation must be completed. - Divide all fees, expenses, and closing costs, whether included in the loan or paid outside of closing (i.e., an appraisal fee), by the reduction of the monthly PI payment. - Exclude the VA funding fee, escrow, and prepaid expenses, such as insurance, taxes, special assessments, and homeowners' association (HOA) fees! - Lender Certification: The Lender must document the Statutory Calculation, and must certify to VA that the ≤ 36 months Fee Recoupment requirement was met using the Statutory Calculation - Eligibility: If the loan does not meet the ≤ 36 months Fee Recoupment requirement using at least one of these calculation methods, the loan is <u>not eligible</u> for VA guaranty. - IRRRLs Resulting in Same or Higher PI Payments: - Requirement: The Veteran may incur no fees, closing costs, or expenses (other than taxes, amounts held in escrow, and fees paid under chapter 37 (e.g., VA funding fee), - Calculation: No calculation is required for Fee Recoupment purposes. (However, a calculation is required for Comparison Statement Disclosure purposes) - Lender Certification: The lender should submit evidence to VA that the Veteran has incurred no fees, costs, or expenses (for example, as documented by the Closing Disclosure (CD).) - Also see VA Circular 26-19-22, Exhibit B – Determining Recoupment Period for IRRRLs - Multiple IRRRL Fee Recoupment Requirements Apply: In addition to VA requirements in this section, the Safe Harbor rules include fee recoupment requirements. See IRRRL Safe Harbor Requirements section
Same/Higher P&I Payment	- The P&I on the new loan must be less than that of the existing P&I unless: - The IRRRL is refinancing an ARM - The term of the IRRRL is shorter than the term of the loan being refinanced. - When the P&I payment is the same or higher the loan must be a no cost loan to Veteran - Lender credits may be used to offset allowable fees and costs. - When the monthly payment (PITI) increases by 20% or more, the loan must: - Qualify as credit qualifying, and - Include a certification that the veteran qualifies for the new monthly payment

Interest Rate Decrease Requirement	- The interest rate on the new loan must be lower than the loan being refinanced and is subject to the net tangible benefit test – see Net Tangible Benefit section. Note: The only exception to not require a decrease in interest rate is refinancing an ARM to a Fixed rate or ARM to ARM. - No more than 2 discount points can be financed in the loan amount.
Net Tangible Benefit (NTB) Test	Net Tangible Benefit Requirements: - Every refinance transaction must offer a documented, demonstrable Net Tangible Benefit (NTB) to the borrower, and, - VA-specific NTB requirements must be met as referenced below. IRRRL loans must meet the NTB test as follows: - Fixed Rate to Fixed Rate: - The interest rate on the new loan must be lower than the interest rate for the loan to be paid off by at least 0.50%. - Fixed Rate to Adjustable Rate: - The interest rate on the new loan must be lower than the interest rate for the loan to be paid off by at least 2.00%. - In fixed-rate to adjustable-rate cases, discount points may be added to the principal Loan amount only if one of the following circumstances exists: - The lower interest rate is not produced solely from discount points. In other words, current interest rates are lower than interest rates at the time the loan being paid off was originated, regardless of the discount being charged (par vs. par). - The lower interest rate is produced solely from discount points, meaning a lower interest rate than on the Loan being paid off was not possible without charging discount points. ➤ When discount points equal to or less than 1% are added to the Loan amount, the maximum LTV is 100%, or ➤ When discount points greater than 1% are added to the Loan amount, the maximum LTV is 90% ➤ Refer to the Appraisal section when charging discount points on VA IRRRL transactions. - ARM to Fixed or ARM to ARM: - No Net Tangible Benefit interest rate requirements apply

Seasoning Requirements	Loan seasoning refers to the age of the Loan being refinanced. If the Loan being refinanced is not seasoned on or before the date the refinance Loan closes, VA will not guarantee the refinance Loan. All VA IRRRL transactions must meet Ginnie Mae seasoning requirements (both Cash Out and VA to VA): - The borrower must have made at least six consecutive monthly payments on the loan being refinanced, beginning with the payment made on the first payment due date. - The first payment due date of the refinance loan must occur no earlier than 210 days after the first payment due date of the loan being refinanced, and - Loans that have been modified must meet the seasoning requirements beginning with the first payment due date after the modification. All VA IRRRL transactions must meet VA IRRRL seasoning requirements: - The due date of the first payment is used to determine loan seasoning. A loan is considered seasoned if, as of the date of loan closing, both of the following conditions are met: - The due date of the first monthly payment of the loan being refinanced is 210 days or more prior to the closing date of the refinance loan, and - Six consecutive monthly payments have been made on the loan being refinanced. Documentation Requirements: VA requires documentation confirming the Loan being refinanced was properly seasoned. Such documentation includes a: - Copy of existing Note or Credit Report Supplement that clearly confirms the first payment due date for the Mortgage being refinanced, and: - The following calculations alone are not acceptable to evidence the first payment due date of the existing loan. Historically, Ginnie Mae does <u>not</u> permit the first payment due date to be: - Calculated using the maturity date of the existing Mortgage, or - Assumed to be two months from the date the Mortgage was opened. - Payment history documenting all payments, or Credit Report Supplement that clearly identifies all payments made in that timeframe. - Mortgage statement: - Compare to terms of Note to confirm no modification
Prior Forbearance	Refer to VA Circular 26-20-25 for VA's underwriting guidelines for Mortgages involving Borrowers who were granted a previous Mortgage forbearance.
Loan Application	Non-Credit Qualifying: - Fully completed URLA required, excluding: - Income section (Employment should be completed) - Assets section Credit Qualifying: - Fully completed URLA required
Verbal VOE	- VOE on the income verification required to confirm borrower has income source: - For wage earners, it must be within 10 business days of the Note date. - For self-employed, it must be within 60 calendar days of the Note date from an acceptable third-party source. Borrowers on fixed income do not require a VOE. Fixed income source must be listed on the 1003 without income.

Exempt Income Verification	- Income documentation is not required for Non-Credit Qualifying IRRRL if all seven of the following are met: - Veteran is not 30 days or more past due on the Loan being refinanced. - The proposed IRRRL does not increase the principal balance outstanding on the prior existing residential Loan, except to the extent of fees and charges allowed by VA. - Total points and fees, (as defined in section 103(a)(4) of TILA, other than bona fide third-party charges not retained by the Mortgage originator, creditor, or an affiliate of the creditor or Mortgage originator and all other applicable VA allowable fees) payable in connection with the proposed IRRRL do not exceed 3% of the total proposed principal amount. - The interest rate on the proposed IRRRL is lower than the interest rate on the Loan being refinanced, unless the Borrower is refinancing from an adjustable rate to a fixed rate Loan, under guidelines that VA has established. - The proposed IRRRL is subject to a payment schedule that will fully amortize the IRRRL in accordance with VA regulations. - The terms of the proposed IRRRL do not result in a balloon payment, as defined in TILA. - Both the residential Loan being refinanced and the proposed IRRRL satisfy all other VA requirements. - Loans that do not meet the requirements for exemption from income as per above, may still be deemed a Safe Harbor QM loan if the income and DTI is verified in accordance with the standards set forth in VA's regulation 38 CFR 36.4330; Loan must continue to meet the seasoning and recoupment requirements to be considered a Safe Harbor QM Loan. - The type of QM designation, Safe Harbor versus Rebuttable Presumption, will not change due to VA's approval.
Safe Harbor QM Loan	For a VA IRRRL to be considered a Safe Harbor QM Loan, the Loan must meet all the following requirements: - The loan being refinanced must have six months or more of consecutive payments made on the existing Loan at the time of the new Loan's Closing date measured from Note date to Note date. - Seasoning requirements must be met, as defined in Seasoning Requirements. - The veteran has not been more than 30 days past due during the six months preceding the new Loan's Closing date. - The requirement is to meet a worthwhile benefit to the veteran for a monthly savings with a recoupment time of 36 months or less, as defined in Recoupment of Fees. - All seven criteria for exemption from income verification are met, as defined in Exempt Income Verification. Eligible refinances that do not comply with the above Safe Harbor requirements will result in a VA IRRRL Rebuttable Presumption QM Loan. Rebuttable Presumption loans are ineligible.
Rebuttable Presumption	Ineligible – see Safe Harbor section
HPML	Ineligible
Asset Documentation	Funds to close will be required to be documented when it is greater than the <u>proposed</u> P&I.
Reserves	- Not required for non-credit qualifying - Credit qualifying: - Investment requires 6 months PITIA for each investment property owned by the borrower.

Borrower Eligibility	Generally, the party or parties obligated on the original loan must be the same as the new loan and the Veteran must still own the property. A change in obligors is permitted in the following cases:
